

Community Focused. Client Driven.

MOBILE

MOBILE BANKING OVERVIEW

MOBILE BANKING

Mobile Banking gives you the tools to stay securely connected to your accounts, allowing you to manage your money anytime, anywhere. With Mobile Banking, you can view recent transactions, account balances, check images and branch location information. Easily pay your bills, and transfer, send, receive and deposit funds from the convenience of your smartphone. Use just one, several or all the mobile banking features through mobile apps on your Apple® or Android™ device.

> Mobile Deposit

With a few simple steps, Mobile Deposit allows you to safely scan checks via smartphone for deposit. Once scanned, you are immediately notified that your deposit has been initiated as the images are transmitted to mBank where final validation and deposit occurs. Available through the mBank mobile app.

> CardValet®

Easily protect and manage your debit and credit cards through your smartphone. CardValet allows you to turn your credit card "on" or "off" anytime. When they are "off" no one can use your cards. Turn them "on" when you're ready to use them. Instantly change your settings, giving you complete control over your credit or debit card. CardValet provides location-based and usage alerts and controls, allowing you to restrict purchases to a specific location range and set spending limits by merchant category or transaction type. Download CardValet in the app store.

> Mobile Wallet

Mobile Wallet simplifies purchases by allowing you to conveniently store credit or debit card information on your smartphone and use it to make purchases at over a million stores now accepting mobile payments. Download Apple Pay® and Android Pay™ in the app store.

> Popmoney®

Email it. Text it. Eliminate the hassle of cash and checks, and pay people with Popmoney. Popmoney gives you a better way to exchange money. It is specifically designed for person-to-person and small business payments to provide the ability to conveniently deliver funds through email or text. Available through the mBank mobile app.
